### IT DRAGS YOU SLOWLY DOWN

It's hard to keep an even tempe with a dull pain nagging all day at your back; in fact, kidney troubles are at the bottom of very the nervousness and irritability that are so common today. You wonde way you are short and cross, can't eep your mind on one thing, ar nclined to worry over trifles, and subject to fits of "blues" and despon dency. Partly it is due to that pain in your back partly to the irritate ing effect of uric acid on your brain and nerves.

Uric acid is a poison that is a cays forming in the body, and it he duty of the kidneys to filter ut of the blood and pass it off, d olved, in the urine, Healthy kidneys do this work thoroughly and well, but wack or sick kidneys get techind, and the waste matter col legts here and there in the mus cles, joints and nerve centers. Headorbo, diggs spells, rheumatiam, not ralgia, blurry spots octors the eyes pervousness and heart trouble, an signs of uric potsoning.

Eo do not wonder at your condition, especially if the urine does not look or pass naturally. And if your ack aches continually, or you are taken with sharp cricks and stitches of pain when you stoop, turn, or try to lift, iti s sure that your kid-

neys are out of order and need prompt attention, for sick kidneys cannot right tuemselves without
